HPE DSI 311
Introduction to Machine Learning

Spring 2023

Instructor: Ioannis Konstantinidis

Accessing Course Resources

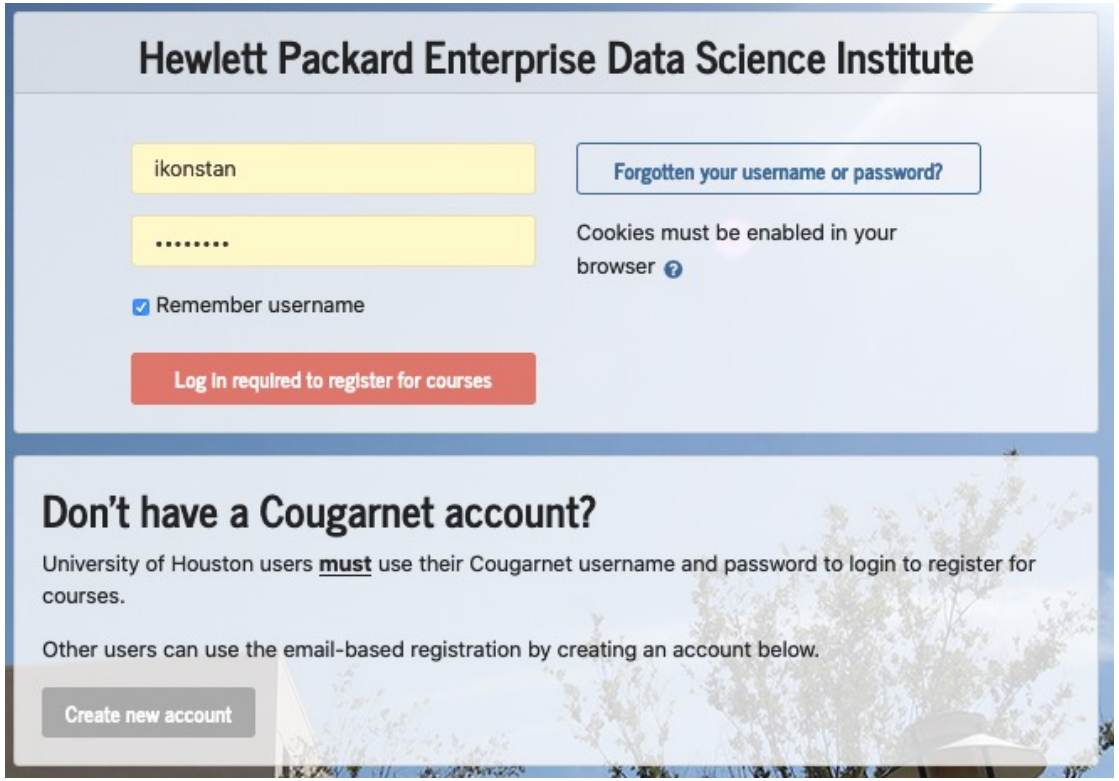
Prior to remote connection to any HPE-DSI resource you must be on the UH-VPN.

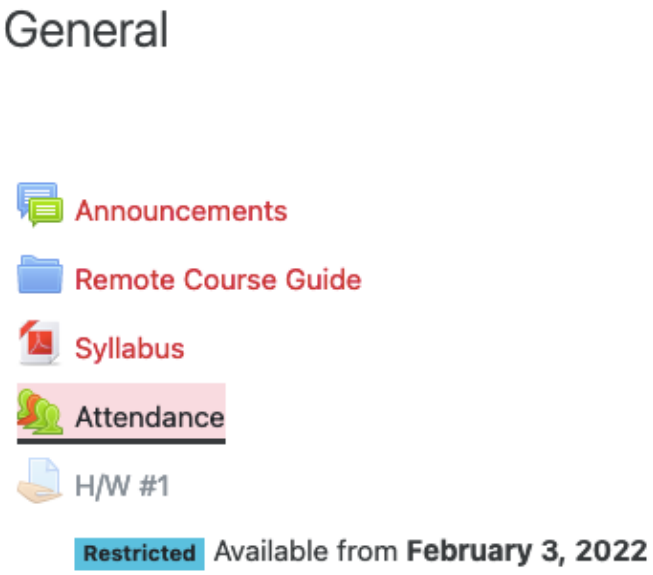
- Moodle website (for course materials and recording attendance)
- MS Teams (for online lectures)
- Neches cluster (for lab work)

VPN Installation Instructions

- Windows
  - https://uh.edu/infotech/services/computing/networks/vpn/windows/
- Mac
  - https://uh.edu/infotech/services/computing/networks/vpn/installation-for-mac/
- Linux
  - https://uh.edu/infotech/services/computing/networks/vpn/installation-for-linux-ubuntu/

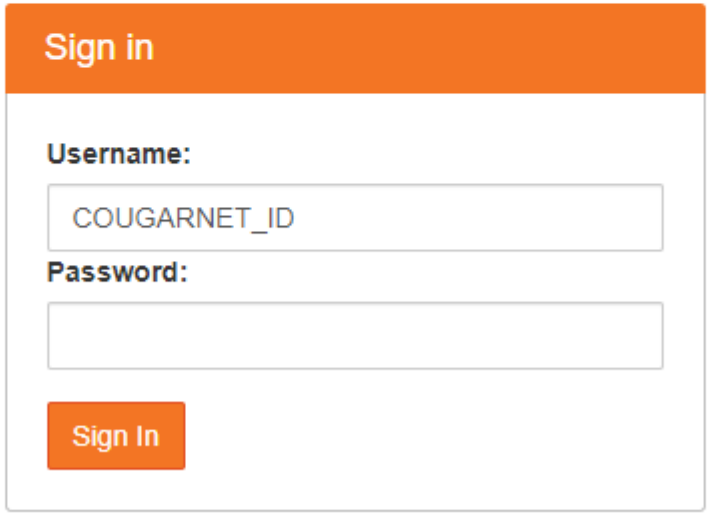
Accessing Course Website: https://secure.hpedsi.uh.edu/training/login/index.php

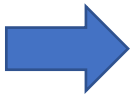


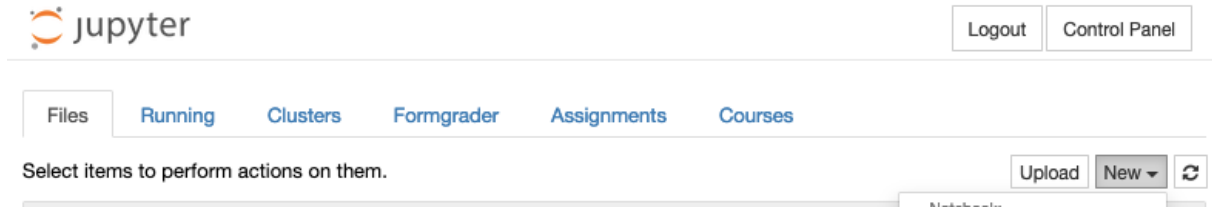


Accessing Neches

Log in at https://neches.rcdc.uh.edu/hub/login

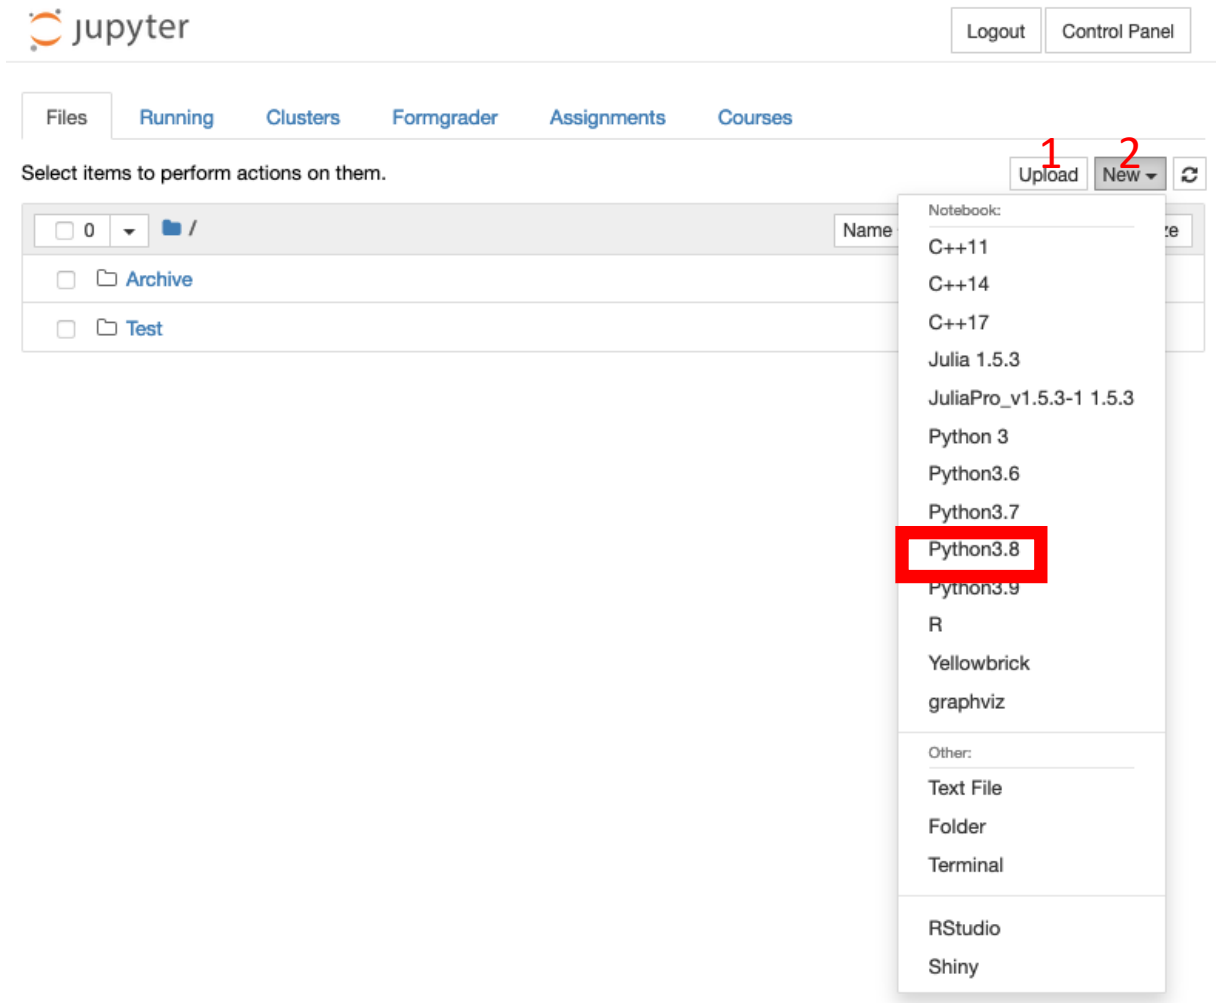






Using Jupyter Lab

1. Upload Workbooks using ‘Upload’
2. Create New Workbooks using ‘New’



Technical Issues

If you experience any issues connecting to/using the resources, please contact your course TA.
